

**How to fill in results  
Antibody Screening and  
Compatibility Testing (4460)**

# Getting started 1-2-3

The image shows the LabScala login interface. At the top is a blue header with the LabScala logo and name. Below the header, the title "Login with username and password" is displayed. There are two input fields: "Username:" and "Password:". Below the password field is a blue "Login" button and a link "Forgot your password?".

AUTH.01.1

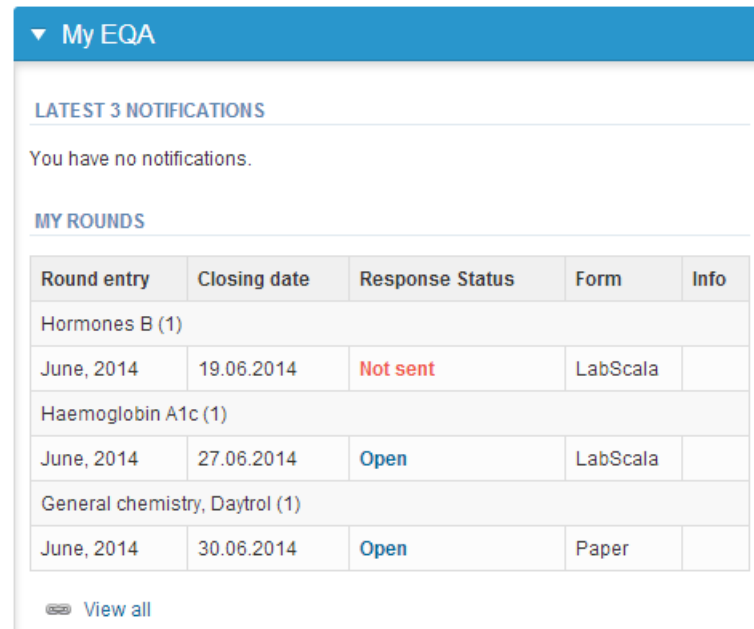

The image shows the LabScala password change interface. At the top is a blue header with the LabScala logo and name. Below the header, the title "Password change" is displayed. There are three input fields: "Old password:", "New password:", and "Repeat new password:". Below the "Repeat new password" field are two buttons: "Change" and "Back".

OS5.2

1. Login with your username and password.
2. If you use LabScala for the first time: Login using the existing Mainio (participant services) password
3. Change the password
  - Password needs to have 9 characters, one of which needs to be a letter and one a number
  - This will be your new administrator password
  - If you are already familiar with LabScala, use your own login name and password to access your account
4. Start using LabScala

# Filling results

- The easiest way to access open schemes is from "My EQA" on the front page
- In the view of the next 3 closing schemes the closing date and the status of the scheme can be seen
  - **Open** = eForm open for result filling
  - **Not sent** = result filling started but results not sent to Labquality
  - **Accepted** = results sent to Labquality

The screenshot shows a user interface for 'My EQA'. It features a blue header with a dropdown arrow and the text 'My EQA'. Below the header, there are two sections: 'LATEST 3 NOTIFICATIONS' and 'MY ROUNDS'. The 'LATEST 3 NOTIFICATIONS' section contains the text 'You have no notifications.' The 'MY ROUNDS' section contains a table with the following data:

Round entry	Closing date	Response Status	Form	Info
Hormones B (1)				
June, 2014	19.06.2014	Not sent	LabScala	
Haemoglobin A1c (1)				
June, 2014	27.06.2014	Open	LabScala	
General chemistry, Daytrol (1)				
June, 2014	30.06.2014	Open	Paper	

At the bottom of the table, there is a link labeled 'View all' with a small icon to its left.

# Filling results

- The eForms can be accessed also from "My Schemes" in the header
  - **Fill results:** access to eForms that are open for result filling
  - **View all:** access to a list of all ordered schemes
  - **Mainio:** other Internet – surveys and e-schemes

# Filling results

- After selecting an open scheme the results can be filled
- Result filling is presented as a process:
  - **Request:** Important round-specific information
  - **Instructions:** Printable instruction letter
  - **Pre-analytics:** Sample delivery information
  - **Analytics:** Enter your results
  - **Post-analytics:** Validation of the results (check and save)
  - **Exit:** Back to the front page
- Access to the next step of the process can be done after the previous step is completed

# Request

- After opening the scheme the request page is opened with the following information
  - **Product:** here it can be seen what and how much has been ordered
  - **Delivery:** samples sent from Labquality
  - **Opening:** Result filling /eForm is opened
  - **Closing:** eForm is closed
  - **Status:** status of the scheme (Open, Draft, Final as before)
- Also the scheme specific contact information is filled here
  - The contact persons receive reminders and important scheme-specific information
  - **At least one contact person needs to be named!**

## Welcome to the round of Antibody screening and compatibility testing, February, 1-2015 analysis

# Instructions

- In Instructions the scheme-specific instructions can be read and printed by pressing the "Print instructions" button on the bottom of the page

## LABQUALITY

External Quality Assessment Schemes

### Antibody Screening and Compatibility Testing 1, 2015

Welcome to this Antibody Screening and Compatibility Testing round.

#### Specimens

**Samples 1** (S001: LQ714315011) and **2** (S002: LQ714315012) are whole blood, volume 4 mL. **Sample 3** (S003: LQ714215013), **Sample 4** (S004: LQ714215014), **Sample 5** (S005: LQ714215015) and **Sample 6** (S006: LQ714215016) contain approximately 3 mL of 15% red cell suspension in preservation medium.

Quality control specimens derived from human blood must be handled with the same care as patient samples, i.e. as potential transmitters of serious diseases. The specimens are found to be HBs-Ag- and HIV-Ab-negative when tested with licensed reagents, but no known test method can offer complete assurance that the specimens will not transmit these or other infectious diseases.

# Pre-analytics

- In Pre-analytics, the following is asked
  - **Sample arrival date**
  - **Quantity received:** How many sample sets were received
  - **Sample storage condition:** How have the samples been stored before analysis (refrigerator, room temperature, freezer, other)
  - **Sample preparation date:** if done, if not, can be left empty
- Comments can be saved if needed
- Move forward by selecting "Save & next"

## Antibody screening and compatibility testing, February, 1-2015 (Sample S001)

<<Previous step>> **Antibody screening and compatibility testing** >>Next step

Samples Sample sets = number of the samples ordered

SAMPLE SETS

1 2

Sample S001

Sample S002

1. Mark down first the measurement date
2. Choose the method from the method list
3. After method selection the 'reaction strength' box will appear. Select the reaction strength. If you choose 'Other method, please specify the method in the Comment field (in the bottom of the page)
4. Mark down the interpretation of the sample
5. Do the same procedures in Compatibility tests.

### Antibody screening and compatibility testing measurement results for Sample S001

* Measurement date		* Method	* Reaction strength	* Interpretation
18.02.2015	Antibody screening	ORTHO BioVue column ag	negative	Negative
* Measurement date		* Method	* Reaction strenght	* Interpretation
18.02.2015	Compatibility 1 / 3	ORTHO BioVue column ag	negative	Compatible
18.02.2015	Compatibility 1 / 4	ORTHO BioVue column ag	negative	Compatible
18.02.2015	Compatibility 1 / 5	ORTHO BioVue column ag	negative	Compatible
18.02.2015	Compatibility 1 / 6	ORTHO BioVue column ag	negative	Compatible

# Results (2)

- There is place for comments at the end of the page
- Options for saving on this page are
  - Use "Save as draft", if you don't want to send the results yet
  - Use "Save as final", if you want to send the results to Labquality
- Back to list –button takes you back to the front page
- If "Save as final" was selected the results are saved and the table is closed. The data can be edited by selecting "Edit data" from the bottom of the page

Sample S001

Sample S002

## ▼ Antibody screening and compatibility testing measurement results for Sample S001

Save as final

# Post-analytics (1)

- When all of the results have been filled the user is taken to Post-analytics for result validation
  - **Product:** what part of the process is being validated
  - **Sample set:** which sample set is being validated
  - **Sample:** which sample
  - **Errors:** if there are analyte-specific validation limit errors these are shown here
  - **Last saved:** The user who has saved the results
  - **Date:** date of last saving
  - **Status:** status of the results (Accepted, Draft, Open, Error)

## Antibody screening and compatibility testing, February, 1-2015 postanalytics

 **LabScala videos on YouTube**

As more and more functionality is added to our EQA-portal LabScala, the need for userguidance is for sure needed.

In order to help our customers use LabScala we have created short LabScala-videotutorials for the most used functions: login, adding users, adding devices, how to use the eForms etc. The videos can be found on LabScala's own YouTube account [@labscalafinland](#) on the page

# LabScala buttons

Save

Enables you to save changes on the form

Back

Takes you back to the previous view

Enables you to add some information. In tables it adds a row.

Edit button enables you to edit texts and information

Delete button enables you to delete texts and information

Accept button marks something as being accepted or valid

Lookup button marks a search field where you can enter text to be searched for

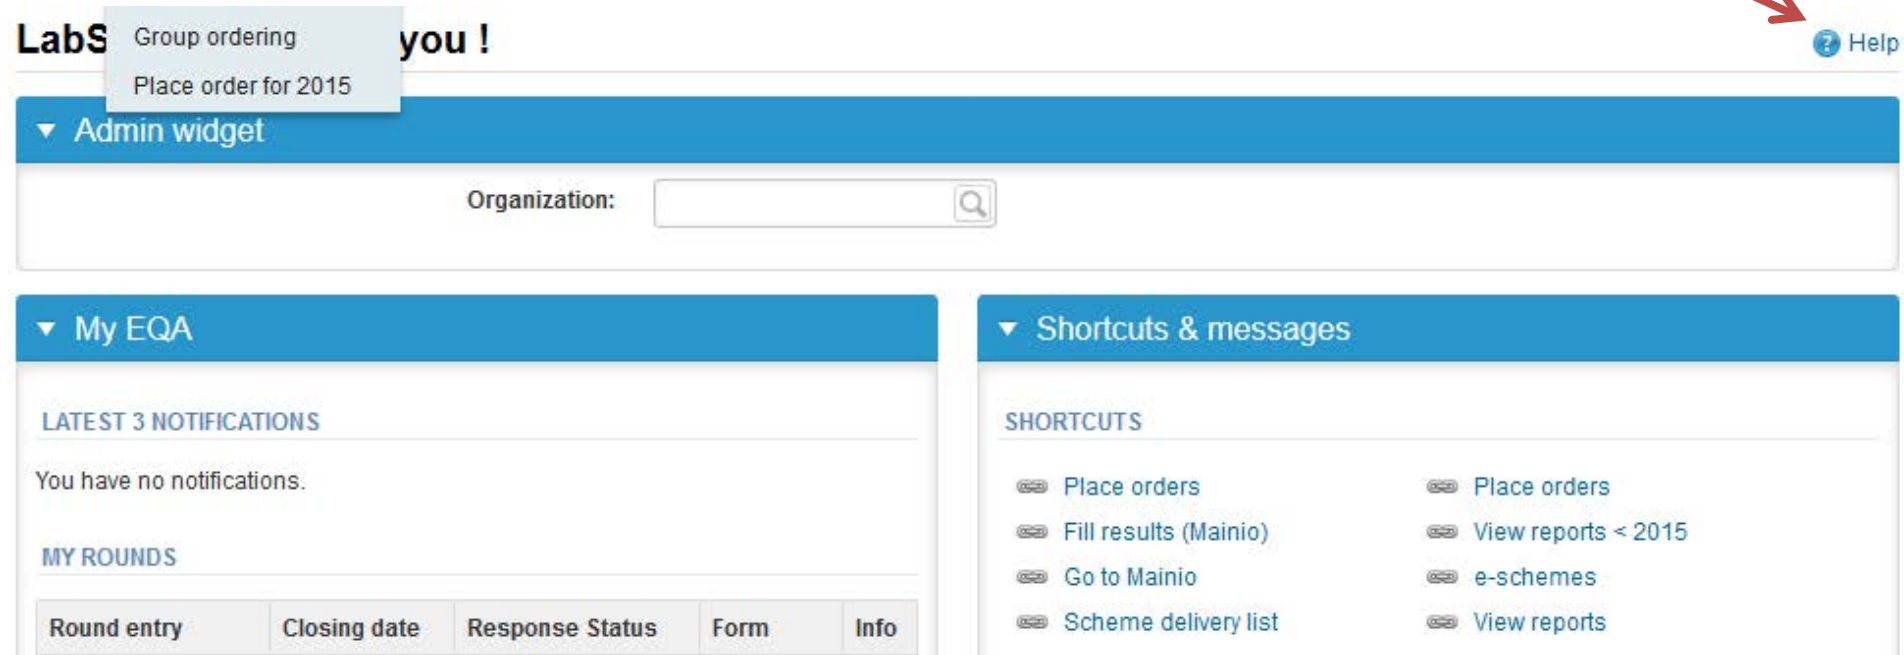

List button marks a field where you can search from the background register

Takes you back to the front page

# Questions?

- In case you have questions, please contact:  
Anja Pakkanen  
[anja.pakkanen@labquality.fi](mailto:anja.pakkanen@labquality.fi)
- In order to help our customers use LabScala we have created short LabScala-videotutorials for the most used functions: login, adding users, adding devices, how to use the eForms etc. The videos can be found on LabScala's own YouTube-account at <https://www.youtube.com/user/LabScala>
- You can find these LabScala instructions behind the Help button in the front page of LabScala

The screenshot shows the LabScala user interface. At the top left, the text "LabS" is partially visible, followed by a notification box containing "Group ordering" and "Place order for 2015". To the right of this is the text "you!". In the top right corner, there is a "Help" button with a question mark icon, which is pointed to by a red arrow from the text in the list above. Below the header, there is a blue bar with a dropdown arrow and the text "Admin widget". Underneath this is a search bar labeled "Organization:" with a magnifying glass icon. The main content area is divided into two columns. The left column has a blue header "My EQA" and contains sections for "LATEST 3 NOTIFICATIONS" (with the message "You have no notifications.") and "MY ROUNDS" (with a table below it). The right column has a blue header "Shortcuts & messages" and contains a section for "SHORTCUTS" with a list of links, each preceded by a small icon.
