Hepatitis A, antibodies
How to fill in results

Quick guide for result reporting

1. Start from LabScala home page by choosing My Schemes → Fill results -> choose correct round.
2. Add Scheme Specific Contact, choose Next.
3. Read Instructions, choose Next.
4. Update Sample registration, choose Save & next
5. Reporting results: choose Measurement date, choose Device (method) or if needed, add it. After adding this information, please link it to this scheme. Instrument and reagents can also be added before result reporting. If you can't find your instrument or reagent in the registry, please contact coordinator by e-mail.
6. Save your results as **Save as final**.
7. Validate your results and if needed, update them, finally choose **Accept and send results**.

MESSAGES

- Postponed rounds: Influenza virus A+B and RS virus**
January rounds 5671 Influenza virus A+B, detection and 5672 RS virus, detection, are postponed. The new delivery dates are in February.
- Delay in scheme Semen Analysis**
We regret to tell our clients that the scheme Semen analysis is postponed to 2016 February. We apologize any inconvenience caused by this.
- How to add your email for the reports ready notifications**
As you have noticed, we send a report ready -email as soon as the reports are downloaded to LabScala. This email is sent to the administrator of each...

Choose correct EQA round on the front page or by choosing My Schemes, Fill results

Filling results

MY ROUNDS

Round entry	Closing date	Response Status	Form	Info
Prostate specific antigen (1)				
January, 1-2016	15.02.2016	Sent	LabScala	
C-reactive protein (1)				
February, 1-2016	24.02.2016	Fill results	LabScala	

 [View all](#)

- In the view of MY ROUNDS status of the scheme can be seen
 - **Fill results** = eForm open for result filling
 - **Not sent** = result filling started but results not sent to Labquality
 - **Sent** = results sent to Labquality

Filling results

- After selecting an open scheme the results can be filled
- Result filling is presented as a process:
 - **Request:** Important round-specific information
 - **Instructions:** Printable instruction letter
 - **Pre-analytics:** sample delivery informationn
 - **Analytics:** round results
 - **Post-analytics:** Validation of the results
 - **Exit:** Back to the front page
- Access to the next step of the process is gained after the previous step is completed and by pressing the Next- or Save&next -button.

Request

- After opening the scheme the request page is opened with the following information
 - **Product:** here it can be seen what and how much has been ordered (e.g. how many sets of samples ordered)
 - **Delivery:** samples sent from Labquality
 - **Opening:** Result filling /eForm is opened
 - **Closing:** Last date to fill in results
 - **Status:** status of the scheme (Open, Draft, Accepted as before)
- Also the scheme specific contact information is filled here
 - The contact persons receive reminders and important scheme-specific information
 - **At least one contact person needs to be named!**

Results – how to start

- In Analytics the analyte-specific results can be filled
- If you have ordered multiple sample sets, the sets can be seen on the top of this view
- If the scheme has multiple samples, the samples are listed on top of the result form (e.g. S001, S002, S003)
- Result filling is started by selecting the measurement day
- If you want to report additional results from the same specimen, please select the **”Add result +”** and a new result field is opened.

COMMENTS

Results – selecting the device

- Analyte-specific results are filled by selecting a previously filled device from the dropdown list or by selecting "Add device"
 - Devices can be added beforehand from My Registry – My devices
 - Instructions on how to do this will be given later in this guide ("Adding your own devices")
- If "Add device" is selected you are taken to your own device list. See instructions starting from slide 17.
