

Basic chemistry (2100)

How to fill in your results in Labscala

Quick guide for result reporting

1. Start from LabScala home page by choosing My Schemes → Fill results → choose correct round.
2. Add Specific Contact, choose Next.
3. Read Instructions, choose Next.
4. Update Sample registration, choose Save & next
5. Reporting results: choose measurement date, test kit and the correct finding for each analyte.
6. Save your results as **Save as final**. Move to next specimen by choosing Next.
7. Validate your results and if needed, update them, finally choose **Accept and send results**.

Result reporting

The screenshot shows the LabScala web application interface. At the top, there is a navigation bar with a home icon and the following menu items: My Orders, My Schemes (circled in red), My Registry, and Administration. Below the navigation bar, a welcome message reads "LabScala welcomes you !". On the right side, there is a "Help" link. The main content area is divided into two panels. The left panel, titled "My EQA", contains sections for "MY REPORTS" (with a link to "Go to Mainio reports"), "LATEST 3 NOTIFICATIONS" (stating "You have no notifications."), and "MY ROUNDS". The "MY ROUNDS" section displays a table with the following data:

Round entry	Closing date	Response Status	Form	Info
Haemoglobin, POC (1)				
November, 4-2014	24.11.2014	Not sent	LabScala	⚠
Clinical cytology (1)				
October, 2-2014	28.11.2014	Not sent	LabScala	⚠
RS virus, detection (1)				
November, 2-2014	02.12.2014	Not sent	LabScala	
Influenza virus A+B, detection (1)				
November, 2-2014	02.12.2014	Not sent	LabScala	
Herpes simplex 1 and 2, antibodies (4)				
November, 4-2014	04.12.2014	Not sent	LabScala	⚠

At the bottom of the "MY ROUNDS" section, there is a "View all" link. The right panel, titled "Shortcuts & messages", contains a "View all messages" link. Two arrows point from the "My Schemes" menu item to the "MY ROUNDS" section and from the "MY ROUNDS" section to the text boxes on the right.

Choose correct EQA round on the front page or by choosing My Schemes and then Fill results

In the view the closing date and the status of the scheme can be seen

- Fill results** = eForm open for result filling
- Not sent** = result filling started but results not sent to Labquality
- Sent** = results sent to Labquality

From Request to Post-analytics

- After opening the scheme the request page is opened with the following information
 - **Product:** Here it can be seen what and how much has been ordered. **At least one scheme specific contact person needs to be named here!**
 - **Instructions:** Scheme specific instructions can be read and printed
 - **Pre-analytics:** Specimen arrival date, quantity received, specimen storage conditions etc.
 - **Analytics:** Analyte-specific results can be filled by methods
 - **Postanalytics:** Validate your results
 - **Exit:** Back to the front page

The screenshot displays two main sections: 'MY ORDERS' and 'MY SCHEME SPECIFIC CONTACTS'. The 'MY ORDERS' section contains a table with columns for Product, Delivery, Opening, Closing, Status, and Form. The 'MY SCHEME SPECIFIC CONTACTS' section contains a table with columns for Name and Send E-mail notification to, and a plus sign button circled in red. Below these sections is a blue bar with a dropdown menu for 'Coordinator contact information'. At the bottom right, there are two buttons: 'Next' (green) and 'Exit' (blue), with the 'Next' button circled in red.

Product	Delivery	Opening	Closing	Status	Form
Basic chemistry, POCT analyzers(5)					
	21.02.2017	21.02.2017	22.03.2017	Ordered	LabScala

Name	Send E-mail notification to	
testaaja3	testi2@testi.fi	
		 

► Coordinator contact information

By pressing the "Next" button LabScala will automatically move you forward

Next Exit

Results – how to start

- In this view you can add your results for basic chemistry analytes
- Result filling is started by selecting the measurement date
- Mark the measurement date for the analytes that you are using

* Measurement date	Analyte	* Device	* Instrument	* Reagent	* Result	Unit
14.02.2017 	Alkaline phosphatase	-Choose- ▼				
	Alanine aminotransferase					

Results-continues

- Select your device from the drop-down list and fill in your method information
- → Add your results
- If your device is not found from the drop-down list → choose "add device"
- If you don't have your device in this list → choose "new device" and fill in needed information → press "save" and move back to entering your results

Sample S001 Sample S002

▼ Measurement results no. 1 Add result +

* Measurement date	Analyte	* Device	* Instrument	* Reagent	* Result	Unit
14.02.2017	Alkaline phosphatase	accu7/001	Accu-Chek Compact Plus	Accu-chek strips		U/l
<input type="text"/>	Alanine aminotransferase					

- Then select **Save as final** and **Next** and you can add your specimen S002 method and result

Results-continues

- Add the measurement date, test and result for specimen S002 for analytes that you are using.

Sample S001 **Sample S002**

▼ Measurement results no. 1 Add result +

* Measurement date	Analyte	* Device	* Instrument	* Reagent	* Result	Unit
09.02.2017	Alkaline phosphatase	Peruskemia XPT/160 	Siemens Advia Chemistry XPT	ADVIA Chemistry Alkaline Phosphatase_2 Concentrated (ALP_2c)	<input type="text"/>	U/l
<input type="text"/>	Alanine aminotransferase					

- Save as final and then choose Next

[Save as draft](#) [Save as final](#)

Validate your results

Check and correct if errors and then **Accept and send results**

Validation results						
Product	Sample set	Sample	Errors	Last saved	Date	Status
Basic chemistry, POCT analyzers	1	Sample S001	OK	Kristel Virtanen	08.02.2017 09:17	Accepted

Basic chemistry, POCT analyzers	5	Sample S001	OK	Kristel Virtanen	08.02.2017 09:18	Accepted
Basic chemistry, POCT analyzers	5	Sample S002	OK	Kristel Virtanen	16.02.2017 10:08	Accepted

Accept and send results Exit

LabScala buttons

Save

Enables you to save changes on the form

Back

Takes you back to the previous view

Enables you to add some information. In tables it adds a row.

Edit button enables you to edit texts and information

Delete button enables you to delete texts and information

Accept button marks something as being accepted or valid

Lookup button marks a search field where you can enter text to be searched for

List button marks a field where you can search from the background register

To the Home page
